

infectious substances which can directly or indirectly injure or cause disease or damage in any plants or parts thereof or any processed, manufactured, or other products of plants.

State. The District of Columbia, Puerto Rico, the Northern Mariana Islands, or any State, territory, or possession of the United States.

§ 301.1-2 Criteria for special need requests.

(a) A special need request, as described in § 301.1, may be generated by a State or a political subdivision of a State. If the request is generated by a political subdivision of a State, the request must be submitted to APHIS through the State. States may also collaborate with other States to submit multi-State special need requests. However, if submitted, the multi-State special need request must include information in sufficient detail to allow APHIS to analyze the impacts on each State on an individual basis. All special need requests must be signed by the executive official or officials or by a plant protection official or officials of the State(s) making the request and must contain the following:

(1) Data drawn from a scientifically sound detection survey, showing that the biological control organism, noxious weed, or plant pest of concern does not exist in the State or political subdivision or, if already present in the State or political subdivision, the distribution of the biological control organism, noxious weed, or plant pest of concern;

(2) If the biological control organism, noxious weed, or plant pest is not present in the State or political subdivision, a risk analysis or other scientific data showing that the biological control organism, noxious weed, or plant pest could enter the State or political subdivision and become established;

(3) Specific information showing that, if introduced into or allowed to spread within the State or political subdivision, the biological control organism, noxious weed, or plant pest would harm or injure the environment or agricultural resources in the State or political subdivision. The request should contain detailed information,

including quantitative estimates, if available, about what harm or injury would result from the introduction or dissemination of the biological control organism, noxious weed, or plant pest in the State or political subdivision;

(4) Specific information showing that the State or political subdivision has characteristics that make it particularly vulnerable to the biological control organism, noxious weed, or plant pest, such as unique plants, diversity of flora, historical concerns, or any other special basis for the request for additional restrictions or prohibitions; and

(5) Information detailing the proposed additional prohibitions or restrictions and scientific data demonstrating that the proposed additional prohibitions or restrictions are necessary and adequate, and that there is no less drastic action that is feasible and that would be adequate, to prevent the introduction or spread of the biological control organism, noxious weed, or plant pest in the State or political subdivision.

(b) All special need requests must be submitted to the Deputy Administrator for Plant Protection and Quarantine, APHIS, USDA, Jamie L. Whitten Federal Building, 14th Street and Independence Avenue, SW., Room 301-E, Washington, DC 20250.

§ 301.1-3 Action on special need requests.

(a) Upon receipt of a complete special need request submitted in accordance with § 301.1-2, APHIS will publish a notice in the FEDERAL REGISTER to inform the public of the special need request and to make the request and its supporting information available for review and comment for at least 60 days.

(b) Following the close of the comment period, APHIS will publish another notice announcing the Administrator's decision to either grant or deny the special need request. The Administrator's determination will be based upon the evaluation of the information submitted by the State or political subdivision of a State in support of its request and would take into account any comments received.

§ 301.10

7 CFR Ch. III (1–1–11 Edition)

(1) If the Administrator grants the special need request, the State or political subdivision of a State will be authorized to impose only the specific prohibitions or restrictions identified in the request and approved by APHIS. APHIS will coordinate with the State, or with the State on behalf of the political subdivision of the State, to ensure that the additional prohibitions or restrictions are in accord with the special need exception granted by the Administrator.

(2) If the Administrator denies the special need request, the State or political subdivision of a State will be notified in writing of the reason for the denial and may submit any additional information the State or political subdivision of a State may have in order to request a reconsideration.

(c) If granted, a special need exception will be applicable for 2 years, at the end of which the State or political subdivision of a State must submit a request for renewal of the exception. A special need renewal request must address the same criteria as the initial request submitted under § 301.1–2 and must show that a special need still exists that warrants the continuation of the special need exception. The renewal must be submitted no sooner than 6 months and no later than 3 months prior to the end of the 2-year applicability period for the initial exception. Once a special need renewal request has been received, APHIS will follow the same notice and comment process outlined in paragraphs (a) and (b) of this section. If, by the end of the 2-year applicability period, the State or political subdivision of a State does not submit a special need renewal request, the State's or political subdivision's special need exception will lapse and the State or political subdivision of a State will have to reapply for the special need exception.

(d) If the Administrator determines that there is a need for the withdrawal of a special need exception before the renewal date of the special need exception, the reasons for the withdrawal would be communicated to the State or to the political subdivision of the State and APHIS will publish a notice in the FEDERAL REGISTER to inform the public of the withdrawal of the special need

exception and to make the information supporting the withdrawal available for review and comment for at least 60 days. Reasons for withdrawal of approval of a special need exception may include, but are not limited to, the availability of new scientific data or changes in APHIS regulations. Following the close of the comment period, APHIS will publish another notice announcing the Administrator's decision to either withdraw or uphold the special need exception. The Administrator's determination will be based upon the evaluation of the information submitted in support of the withdrawal and would take into account any comments received.

Subpart—Imported Plants and Plant Parts

SOURCE: 62 FR 61212, Nov. 17, 1997, unless otherwise noted.

§ 301.10 Definitions.

Move (moved, movement). Shipped, offered to a common carrier for shipment, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved.

State. Any State, territory, district, or possession of the United States.

§ 301.11 Notice of quarantine; prohibition on the interstate movement of certain imported plants and plant parts.

(a) In accordance with part 319 of this chapter, some plants and plant parts may only be imported into the United States subject to certain destination restrictions. That is, under part 319, some plants and plant parts may be imported into some States or areas of the United States but are prohibited from being imported into, entered into, or distributed within other States or areas, as an additional safeguard against the introduction and establishment of foreign plant pests and diseases.

(b) Under this quarantine notice, whenever any imported plant or plant part is subject to destination restrictions under part 319:
